

WHEN IT COMES TO CHIS&E COLLEGE PREP, OUR K-3 STUDENTS AREN'T PLAYING

Neither are their parents or their teachers. At the Chicago Pre-College Science & Engineering Program, we know that student achievement is just about guaranteed when you bring together a committed parent, a determined student and dedicated educators. That's why we not only stimulate and empower the child, we also provide parents and teachers with the right tools and experience to support the next generation of scientists and engineers.

Our students aren't playing and neither are we. We're serious about preparing our children for the workforce of the future.

For more information visit ChiS&E at www.chiprep.org or our bi-lingual website at www.mylittleengineers.com
